Insect Collecting Task

Wednesday

Mrs. Jenny's class collected 24 insects on the playground. They decided to put them in cages to study them and then they would return them back to the playground. They had just enough cages to put 4 insects in each cage.

How many cages did they have? Draw squares for the cages and circles for the insects to show your answer.

Twelve ladybugs were sitting on a leaf. Three flew off. How many ladybugs are left sitting on the leaf? Draw the ladybugs and write the number sentence to show how many are left.

Mrs. Jenny made 10 square pieces of fudge. She told her 5 students that they could eat all the fudge if they could discover how to give each person a fair share. How should the students fairly share the fudge?

Show and explain your math thinking.

My Family

Read the short story below,

I love my family. There are five people in my family. I have one brother and one sister. My brother is seven and my sister is two. My mom and dad make the rules for my family. My little sister gets in trouble sometimes. Our favorite thing to do as a family is to play games together.

Now answer the questions about the story.

- 1) How many people are in the family? _____
- 2) How old is the sister? _____
- 3) Who gets in trouble sometimes? _____
- 4) Who makes the rules? _____
- 5) What does the family like to do best?
