## Mrs. Jenny's Class

### May 15, 2015

## Hello Families!

Field day was fantastic! We could not have done it without your support! Thank you to the moms, dads, uncles, grandmas, and little brothers who made today possible. Thank you for the water and ice pop donations that kept us cool! We truly appreciated it! We were tug-o-war winners and showed how team work pays off!! Super proud! I'm sure everyone will sleep well tonight!

As we wind down the year, I want to tell you again that I am SOOOO proud of the students in our class. I am happy to say that these boys and girls are ready for First Grade! Their accomplishments are impressive and I know that they will be very successful next year.

Please help them this summer by reviewing the sight words and continue to READ AND WRITE!! Work on fluency and expression in reading and adding details to enhance stories in writing. Math is another area to focus on. Please practice addition and subtraction to 20 so that fluency will be evident. Use manipulatives (cereal, gold fish crackers, etc) to help them if needed.

Please remember that there are no backpacks, bags, etc. allowed on the final day of school! Your child will bring home several gift items on Tuesday from me. They will be getting several books for their personal library and some fun things to have.

This has been a great class and I appreciate that you have entrusted me with their education. I hope that you will have a wonderful summer! **Please keep in touch!!**

**Lots of love!!!**  
**Mrs. Jenny**

## Tuesday – Star Gala

Just one more day to earn some extra star bucks for the Gala and for shopping!!

### What We're Learning About!

#### NEXT WEEK'S SPELLING WORDS-

#### **NO NEW WORDS! Review all old!**

- Writer's Workshop- Drawing or "writing" about our pictures. Discussing blends in words. Writing about life cycles and ocean animals. Memory Book writing.
- Reader's Workshop- Understanding prefixes and suffixes in words. (prefixes: re-, un-, pre-, suffixes: -ed, -s, -ful, -less).
- Math-Math manipulatives. Exploring coins, counting 1-200, addition equations up to 20, and subtraction.
- Social Studies- Using words and phrases related to chronology and time to explain how things change. American symbols.
- Science- Using our senses to observe and group shells and other objects by physical attributes.

### May Dates:

May 19th- End of year party. Please see flyer/email for donations we would like to have.

May 21st- Last Day of School
